Just received this from E&E news. I have some draft responses below. Andrea, do you want to respond to Sean, or should I do it?

Deliberative Process / Ex. 5

Best,

Sabine

Subject: Reporter's query re Toby Baker's concerns about NAAQS implementation process/your appointment to CASAC

Dr. Lange:

Please excuse my previous message; I accidentally sent it while still typing.

I'm writing a story this morning on the newly filed comments (attached) by Mr. Baker expressing concerns about the current NAAQS implementation process. The story will also note that you were just appointed to the CASAC, which will of course play a central role in the ongoing reviews of the ozone and particulate matter NAAQS.

I just wanted to check:

- 1) Do you share the views expressed by Mr. Baker and, if so, do you plan to raise them in your capacity as a CASAC member?
- 2) Have you have any conversations with Mr. Baker or other TCEQ personnel about these concerns? If so, have Mr. Baker or other TCEQ personnel asked or instructed you to raise them in your capacity as a CASAC member?

As you've no doubt gathered, I've also contacted TCEQ's media relations office with similar questions. My deadline for this story is noon (ET) today, but we can update the article later if you need more time.

Thank you for your assistance.

Regards,
Sean Reilly
